

Lyra Series Green Laser Pointer

The Lyra series green laser pointers are a perfect choice for business meetings, classroom presentations and safe home laser experimentation. Five to ten times more visible than common red laser pointers, the Lyra series are ideal for maximizing visibility, even on bright projection screens, while not compromising safety. Available in three carefully selected finishes to match any style. With the look of a high end fountain pen and the function of a quality timepiece the Lyra is great to own and even better to give as a gift!

All of Laserglow's green laser pointers are IR-filtered for safety and employ APC technology to maintain constant output power. APC (Automatic Power Control) is a system that uses an optical feedback loop to ensure stable laser output.

Key Features:

- *Starting at: \$49*
- *Output Power:* Varies with model
- *Expected Life:* 5000 hours
- *Wavelength:* 532nm (green)
- *Key Feature:* High Quality Build, All AR-coated glass optics, Available in 3 finishes
- *Casing:* Solid Brass
- *Package Includes:* Portable laser, batteries, instructions/warranty.
- *Safety Info:* Complies with Class IIIa regulations, contains high quality glass IR filter
- *Duty Cycle:* 90 sec. on/20 sec. off

Item	Details	Price (USD)
Lyra-B = Piano-black housing with gold accents		
Lyra-B3	Output Power: 3.0-4.0mW	\$49
Lyra-B5	Output Power: 4.0-5.0mW	\$59
Lyra-C = All-chrome housing		
Lyra-C3	Output Power: 3.0-4.0mW	\$49
Lyra-C5	Output Power: 4.0-5.0mW	\$59
Lyra-G = Chrome housing with gold accents.		
Lyra-G3	Output Power: 3.0-4.0mW	\$49
Lyra-G5	Output Power: 4.0-5.0mW	\$59

SPECIFICATIONS:

Series Name	Lyra Series
Dimensions (mm)	152 x 13
Battery Type	2pcs. Alkaline 1.5V "AAA" batteries
	or
	2pcs. NiMH 1.2V "AAA" rechargeable
Sustained Output Power	2-4.5 mW (model dependant)
Wavelength	532nm
Output Type	CW (Continuous Wave)
Cooling Method	Air
Beam Color	Green
Transverse Mode	TEM00
Beam Diameter	<1.5 mm
Beam Divergence	<1.2 mrad
Operating Temperature	15 - 35°C
Expected Lifetime	5,000 hours
Warranty Period	6 months

DANGER!

CLASS IIIa LASER PRODUCT

Laser radiation emitted from the aperture of this device.

Avoid direct or reflected exposure to the beam.

Wavelength: 532 nm Output power: <5 mW

Device is compliant with 21 CFR1040.10 and 1040.11
